

Help protect students and their Chromebooks

VIVID COLOR
NO HARSH
YELLOWING

PATENTED BLUE LIGHT
TECHNOLOGY

2X
IMPACT & SHATTER
PROTECTION*

Safer screens, healthier students

Screen time is on the rise and children's eyes are vulnerable to high-energy blue light. Extended screen time may affect Social-Emotional Learning and contribute to disrupted sleep, dry eye, blurred vision, and headaches. Eyesafe® patented technology is developed with leading ophthalmologists and optometrists to reduce peak levels of high-energy blue light and maintain vivid color.

Screens break, exposing kids to glass dust and shards. Eyesafe Screen Protectors help protect Chromebooks from scratches, smudges, impacts and screen shatters; an essential addition to a healthier learning environment.

EYESAFE SCREEN PROTECTION PRICING

K-12 CHROMEBOOK/TABLET \$24.99

CAD-based designs for every device make/model

Bulk discounts available

Screen protectors can be preinstalled on new units, ask for details

* Compared to device without screen protector, based on internal testing, actual performance may vary
